## INTRODUCTION

Flint Lockwood is a young inventor who dreams of creating that one big invention that will improve everyone's life. When he created the F.L.D.S.M.D.F.R. (Flint Lockwood Diatonic Super Mutating Dynamic Food Replicator), it looked like he finally pulled it off, when food miraculously began to fall from the sky! However, what started as a triumph for the people of his hometown of Swallow Falls soon turned into a mess of gigantic pro-"portions". Now Flint must utilise every invention and crazy gadget he has made in order to save the world from a food-tastrophe!

## CHARACTERS

### Flint Lockwood

Since childhood, Flint Lockwood has dreamed of inventing something that would make a difference in people's lives. Unfortunately, all of his absurd inventions (including spray-on shoes, a hair unbalder, and the Monkey Thought Translator) have ended in trouble for him, his parents, and his town. But the ceaseless optimist has never given up on his lifelong goal and now, his latest invention – a machine that makes awesome food rain from the sky – actually works and changes the lives of everyone in his small town. Flint is ecstatic, but there's still a nagging suspicion that something, as always, will go wrong...

### Steve the Monkey

Steve is Flint's best (and only) friend, and most trusted (and only) colleague. Flint, convinced that mankind would benefit if humans could understand the deep, wise thoughts of animals, invented the Monkey Thought Translator. Unfortunately, just about the only thought that goes through Steve's tiny monkey-brain is "Hungry! Hungry! Hungry! Hungry!" But Steve and Flint still share a bond, and when Flint must save the world from his out-of-control food machine, Steve will prove what a fearless sidekick he really is.

### Sam Sparks

Sam is a cute, young, enthusiastic weather station intern who dreams of becoming a professional TV weather reporter. She gets her big break when she witnesses – and exclusively reports on – one of the greatest weather stories of all time: a cheeseburger rain! As Flint's food machine creates more and more delicious food weather, Sam's career catapults worldwide. Everything is perfect until Sam discovers larger-than-normal food storms in the forecast. Sam can help Flint stop the out-of-control machine, but to do so, she risks revealing a side of herself that she's kept hidden from the world – and that might mean giving up on her dream!

### Brent McHale

Brent is the biggest celebrity in Swallow Falls. When he was a baby, he posed for the label of Swallow Falls's only export: sardines. Now all grown up, it still doesn't take much to get Brent to recreate his baby-diaper pose. But Brent's world is about to come crashing down when Flint puts Swallow Falls on the map with his food-weather. With his star tarnished, will Brent find a new purpose in life?

### Cal Devereaux

Cal is the adorable young son of Swallow Falls's town cop Earl and his wife, Regina. Earl and Regina love Cal so much they don't want to put any restrictions on him, especially when it comes to how much of Flint Lockwood's delicious food-weather Cal should eat.

## Earl Devereaux

Earl is the overprotective town cop who insists on everyone obeying the rules. Everyone, that is, except his adorable son, Cal, who is allowed to get away with everything because Earl can't say no to him. Still, when Flint sees the unconditional love that Earl has for Cal, he longs for the same relationship with his own father.

## Tim Lockwood

Tim is Flint's old-fashioned, technophobic, tongue-tied dad. He loves his son and tries to be a supportive father, but only knows how to communicate using fishing metaphors, which make no sense to Flint. When Flint's amazing food machine turns him into the town hero, Tim is worried that things will end in disaster, just like all the other times. Only when Flint loses faith in himself does Tim rise to the occasion and find a way to show his son how much he loves and appreciates him.

## Mayor Shelbourne

The self-absorbed mayor of Swallow Falls, Mayor Shelbourne knows a good thing when he sees it, and a rainfall of yummy cheeseburgers is definitely a good thing. He persuades Flint to overwork his food machine to create three meals a day of delicious food-weather that will attract tourists from all over the world and make the mayor famous. But it isn't long before the mayor pushes Flint's machine too hard, resulting in a smorgasbord of giant food mayhem that threatens to destroy the town and perhaps the world.

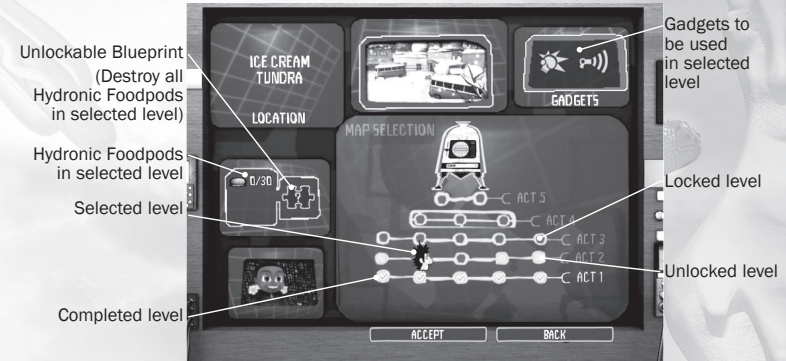

# THE GAME

## The Lab

Think of Flint's lab as your headquarters. From here you can do everything you need to do, from selecting a level to play to upgrading your gadgets. There are five monitors in the lab and each one has a different function. To access a monitor, simply walk up to it and press Enter.

## Selecting a Level

Choose the level you want to play by selecting it and then pressing Enter.

You can only select highlighted levels. Darkened levels are not available. Completed levels will have a tick mark over them and can be replayed at any time.

## The Game Screen

### LEVEL OBJECTIVES

Each level has an objective. There are six different types of objectives for Flint to complete.

Reach a character

Clear an area of all enemies

Search and destroy a specific type of food (e.g., broccolli)

Find and gather a specific type of food (e.g., butter pats)

Use the Outtasighter to clean an area

Use the Outtasighter to destroy a specific type of food from an area

## Gadgets

### HOT ENOUGH

Handheld thermal accelerator. Melts stuff.

### FORKAMAJIGGER

Hyperbionic handheld stabber and transporter. Handy for picking up certain types of food.

### UPSUCKER PLUS!

Porta-vac with liqui-pulsion squirter. Sucks up liquids and spits them out.

### CHOPPER-ER

Manual anodised blade with ergo-grip. Slices up food.

### BIGACIOUS POW

Bionomic clubber with sure-grip handle. Good for punching.

## Outtasighter

The Outtasighter is another one of Flint's wacky inventions. It was built to help clean up extra unwanted foods that are left lying on the ground. Based on the idea that out of sight is out of mind, the Outtasighter was designed to vacuum up foods and then launch them out of sight – literally.

Approach the Outtasighter and press 'Jump' to enter it. Then you can use the Outtasighter to clean food from certain areas.

To...	Control
Move	Press the keys in the direction you wish to go in.
Enter/Exit	Press the Space Bar to enter and exit the vehicle.
Switch Gadget	Press the Left or Right Shift Buttons.
Use Gadget	Left-click the Mouse.

## Hydrons and Hydronic Foodpods

### A Hydron

Hydrons are water molecules in an excited state, produced by the F.L.D.S.M.D.F.R. when it turns water into giant food. Their energy can be used to upgrade your gadgets. Hydronic Foodpods have the highest concentration of Hydrons, so collect as many as you can find!

By breaking all Hydronic Foodpods, it's rumoured that Flint can then harness the energy required to successfully build his secret ultimate invention! Now, if only anyone knew what this ultimate invention could possibly be used for...

Sugar Cube

Ice Cream Ball

Cheese Puff

Ravioli

Strawberry

## Food Ingredients

Chili Drop    Oil Drop    Coffee Drop    Honey Drop    Avocado with Guacamole Drop

Big Broccoli    Nacho Chip    Gorgonzola    Ice Cream Sandwich    Ice Pop

Cookie    Burrito    Egg Muffin    Burger    Bread Slice

Spaghetti Rope    Orange    Coconut and Coconut Shield    Carrot    Chorizo

Butter Pat    Gherkin and Gherkin Slice    Big Jelly and Small Jelly

## Upgrading Gadgets

You can use the Hydrons you have collected to “charge up” upgrades for your gadgets. After enough Hydrons have been collected for an upgrade, choose a gadget and upgrade before continuing your objectives.

## Co-operative Mode

A second player can join the game at anytime by playing as Steve the monkey. To do so, simply press the F2 button. To stop playing as Steve the monkey, the second player must press the F2 Button and then choose 'Drop Out' in options.
